

Outline of *Harry Potter and the Philosopher's Stone* and *Star Wars: A New Hope*

Harry Potter/Luke Skywalker is an orphan living with his aunt and uncle on Privet Drive/Tatooine.

He is rescued from Muggles/aliens by bearded Hagrid/Obi Wan Kenobi, who turns out to be a Wizard/Jedi Knight.

Hagrid/Obi Wan reveals to Harry/Luke that his father was also a Wizard/Jedi Knight and was the best Quidditch player/pilot he had ever seen.

Harry/Luke is also instructed how to use a magic wand/light saber as he trains to become a Wizard/Jedi Knight.

Harry/Luke has many adventures in Hogwarts/the galaxy and makes new friends in Ron & Hermione/Han Solo & Princess Leia.

In the course of these adventures he distinguishes himself as a top Quidditch seeker/X-wing pilot in the Quidditch match/battle of the Death Star, making the catch/direct hit that secures Gryffindor/the Rebels victory against Slytherin/the forces of evil.

Harry/Luke also sees off the threat of Lord Voldemort/Darth Vader, whom we know was responsible for the death of his parents.

In the finale, Harry/Luke and his new friends win the House Cup/receive medals of valor.
